

Initial information on re-designed CL223 Loop cleat.

Re-design full size.

Old CL223 full size.

Features of re-designed cleat.

- Slightly shorter. Slightly higher. No heavier.
- More generous opening at the top of the teeth, so it is easier for the rope to go into the teeth.
- Strength of critical sections has been maintained or increased.
- All changes have been functionally and structurally tested.
- Deeper area for knot to disappear under the cleat.
- Hole sizes improved for easier rope threading.
- Sharp edges around front hole eliminated.
- Overall a more comfortable shape in your hand.
