

# AXIUM 2

GARANTIE  
**5**  
ANS  
WARRANTY

## RELIABILITY

- Exceptional accuracy  $\pm 0.5^\circ$ .
- Individually controlled and delivered with its calibration certificate.
- The large movement of the compass card enabled use in rough seas.

## CLARITY

- Lubber-line, for those who prefer it.
- **Glass optical system for sharper, lighter vision, military standard.**

## ERGONOMICS

Ergonomically designed, it is easily held in the hand:

- grain-finish,
- "anti-slip" notches,
- finger indentations,
- lower rim.

## AX2 B / AX2 Y PHO: Photoluminescent

As with all light sources of this type, the integrated light cell (unalterable) accumulates and then restores light energy for more than ten minutes.

- 4 calibrating zones.
- P.V.C. storage case for the cabin, ref. C2005 (cf page 5).

Ref. AX2 B - Blue

## Course reading on the top with the additional light source for night reading.

- Complete with an attractive carrying case marked VION, with belt attachment and shoulder strap
- A comfortable lanyard in neoprene ensures that it will float.

Ref. AX2 Y - Yellow

*"...the most widely used in the world..."*

## QUICK, PRECISE READING IN ALL WEATHERS.

AXIUM2

Quick and accurate reading, thanks to the two-coloured marking every 5°.

**UNIQUE TO VION !**

A quick sighting is sufficient: the bearing is read under the landmark, that's all. (No need to use the lubber-line which is difficult to align in rough conditions).

AXIUM2

At night, with the PHO, viewing the landmark is made easier by the soft continuous glow of the light (the glare of the torchlight necessary to reactivate a photoluminescent light is thus avoided).

## ACCESSORIES

Ref. AXIUM BAG

### PROTECTIVE CARRYING CASE FOR ALL AXIUM2 COMPASSES

- Attractive protective carrying case marked VION, with belt attachment and shoulder strap.
- Delivered as a standard item with AXIUM2 compasses.
- Easily carry your compass whilst protecting it at the same time.

Ref. C2005

### PVC STORAGE CASE FOR ALL AXIUM2 COMPASSES

- White, easily washable, P.V.C. fits perfectly into most boat interiors.
- Fixed to the wall, no more lost time looking for your compass during those difficult moments when it is most needed.
