

The background of the advertisement is a close-up, high-contrast photograph of a rope cleat. The cleat is a polished, metallic component with a textured surface, likely stainless steel, and is covered in numerous water droplets. A white rope is shown passing through the cleat's groove. The lighting is dramatic, highlighting the metallic sheen and the texture of the rope against a dark background.

Clamcleat®
Rope cleats

REFLECTIONS REFLECTIONS

Beautiful
Rope Holding

- Stainless steel look without the weight
- Cost effective
- No moving parts
- Cleats for ropes 1-8mm (3/64" - 5/16") diameter

REFLECTIONS Beautiful Rope Holding

Chrome plated finish, gives a stainless steel look without the weight or sharp edges. Suitable for all applications where salt water conditions are not expected.

Below are a few of the many cleats available with this finish - see technical specification opposite for more.
