

LIRROS Yacht Ropes

LIROS Unlimited Rope Solutions

LIROS high performance products assures our customers worldwide, that they have made the right choice for all their applications. The wide ranging technical experience of the LIROS team with all kind of synthetic fibre ropes and the most modern machinery allow us to fulfil all our customers' individual requirements.

LIROS halyards, sheets, mooring lines and anchoring ropes are under sail on all the oceans around the world and can be found on race and cruising boats in all corners of the ocean. Lasting quality and high performance will continue to be the guiding principle, motivation and commitment for us and all the LIROS employees.

LIROS Racer Pro

02005

A new product designed for the highest level of competition, which has been used by some of the best Americas Cup Teams also on the Vendée Globe and other Grand Prix events. The core is the same colour as the cover. LIROS Racer Pro has been designed to be particularly effective when used without the cover. The cover and the core work equally well on winches and clutches. Racer Pro is ideal for both sheets and halyards.

- *Stretch characteristics < 1 %*
- *Designed for use without cover*
- *Matching colour core and cover*
- *LIROS-Heat-Stretch-System*
- *easy to splice and remove cover*
- *New Dyneema® SK78*

LIROS Furler Pro

02010

LIROS Furler Pro has been developed specially for the latest generation of headsail furlers. The core is constructed from Dyneema® and covered in a heavy duty polyester which tapers progressively over the length of the rope – the thin end is the part that rolls on the drum and the thick end is the part that is used for handling and winching.

- *Stretch characteristics <1,5%*
- *very good grip on winch drums*
- *simplifies reefing*

LIROS Magic Sheet

LIROS Magic Pro

01506

01507

LIROS Magic Sheet is a new sheet designed for dinghies, catamarans and sports boats. Ideal for main sheets and jib sheets.

LIROS Magic Pro is a halyard or a sheet designed exclusively for dinghies, catamarans and sports boats. The low stretch characteristics are delivered by the LIROS Dyneema Pro core. Designed to be used with the cover stripped. The cover needs only to be used where the rope is being handled.

- Compact construction
- Maximum flexibility
- Perfect handling
- LIROS-Heat-Stretch-System for low stretch characteristics (Art. 01507)
- Perfect for tapering (Art. 01507)

LIROS Soft Shackle

The LIROS Soft Shackle is a perfect replacement for traditional metal snap shackles and screw shackles. The method of using the Soft Shackle is very simple and needs no tools. The main advantages of this shackle are:

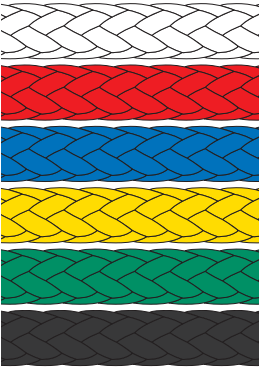

- No damage to the deck
- 10 x lighter than a metal shackle with equivalent breaking strength
- Easy to handle without tools
- Locking system even when not under load
- Colour coded breaking strengths
- Multiple applications for yachting, outdoor and industry.

LIROS Moorex 12

00132

A new generation of mooring warp. Extremely flexible combining great handling and ease of use. Very stretchy which removes the need for a mooring shock absorber. Special construction – a hollow braid for easy splicing together.

- *Stretch at working load >20%*
- *very easy to handle*
- *quick splice construction*
- *high stretch removes need for mooring rubber*
- *available ready spliced*

LIROS Lirolen

01120/01123/01126

An allround rope that floats. 3-strand, easy to splice, retains soft flexibility even after long use, manufactured to DIN 83334/EN 699.

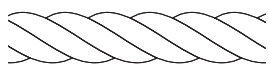

01120: Polypropylene multifilament, heat set, white

01123: spin-dyed Polypropylene multifilament, heat set

01126: spin-dyed Polypropylene multifilament, heat set,
ideal for classic yacht applications

- *Stretch characteristics > 15%*
- *very easy to splice*
- *low-priced allround line*
- *no water absorption*
- *floats*

LIROS Riggers Bag **00146-0056**

A high spec splicing kit with all the tools and accessories necessary to complete braided and 3 strand splices.

To consist of:

- 1 x LIROS Whipping needle
- 1 x Swedish fid
- 3 x Splicing needles (5,5 – 7,5 – 10mm)
- 1 x LIROS brochure
- 1 x LIROS Splicing CD
- LIROS-Tape
- LIROS Dyneema® whipping twine
- 1 x pen
- 1 x LIROS lighter
- 1 x LIROS Wet Notes Block

LIROS Wet Notes **00146-0103**

A high quality waterproof paper note book for use in all conditions.
Measurements 11 x 15 cm.

11090

11091

LIROS Swedish fid

11090/11091

Reliable splicing tool for 3-strand and octoplaited ropes.

11090 – up to 12 mm

11091 – from 14 mm

LIROS Whipping needle

00143-4000

Field-tested tool for splicing. Applicable without sail-maker gloves. To save time and energy while whipping ropes from 4 mm diameter and up.

LIROS Splicer

00143

A professional range of splicing fids – ideal for handle of cover-core splices.

	Size	Rope mm
00143-1000	1 small	6–8
00143-2000	2 medium	10–12
00143-3000	3 large	12–18

LIROS Splicing tool Assortment 00143-5000

4 high quality splicing tools out of high-grade steel, suitable for splicing lines with diameters between 3 and 14 mm. Usable for both plaited and twisted ropes. In practical plastic pipe.

LIROS Heat Cutter **00146**

For cutting and sealing of synthetic cord and lines, width of cutting edge 21 cm.

Professional Cutting of synthetic ropes in all diameters. Made in Germany.

00146-0001 Replacement Blade
